

Signwaves designs and manufactures advertising signs and display products from a 3-acre site in Great Yarmouth, Norfolk. Since 1989, we have supplied our products to signage trade companies and blue-chip brands throughout the UK and beyond.

We are currently looking for an **experienced Digital Print Operator** to join our team.

Full training on our machinery and standard work instructions will be given.

We operate a rotated shift system so flexibility in this regard is very important.

Duties will include:

- *Setting up and operating various digital print machinery and conducting in line quality assurance checks of machine output.*
- *Carrying out digital print machinery maintenance activity as specified.*
- *Reporting any equipment breakdowns/failures.*
- *Ensuring that all standard work arrangements are understood and adhered to.*
- *Quality control of any finished goods/component parts handled by you.*
- *Housekeeping, tool and equipment maintenance (reporting of faults and H&S issues).*
- *Performing any other duty reasonably requested of you by the Print Production Manager, Production Team Leader or Senior Machinist.*

If this role looks to be of interest to you, please contact [lynnford@signwaves.co.uk](mailto:lynnford@signwaves.co.uk) in the first instance, and outline your experience and salary expectations.
