

Frameworkz

Exclusive to Signwaves and unlike any other poster display on the market, our Frameworkz Snapframe gives you complete ownership of your poster display, due to its endless frame printing opportunities.

A sleek and customisable poster display

For internal and external use

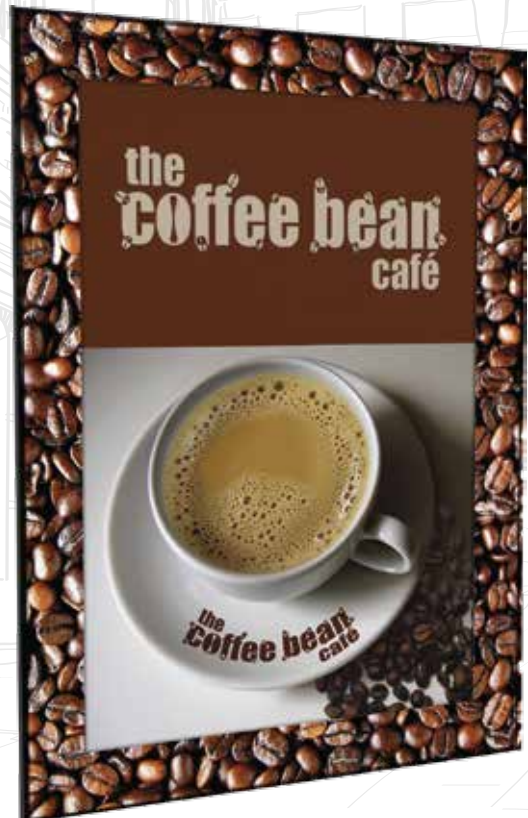

Endless printing possibilities

Further Information:

Frameworkz provides a sleek and customisable poster display that will complement business sectors that are heavily critiqued on their interior space such as:

- Hotels
- Spas
- Restaurants
- Cafes
- Bars
- Public houses
- Showrooms

Frameworkz is for both internal and external use due to its damage resistant aluminium snapframe opening and antiglare 500 PET poster covers. You can feel assured that your poster will be displayed securely and effectively.

Why choose Frameworkz over Snapframes?

Pricing

Frameworkz has a premium feel at an affordable price. Its additional features make it great value for money.

Minimum order quantity: 10

Delivery

The leadtime for Frameworkz is dependant on size and quantity requirements.

All Frameworkz units are made to order.

Graphics

Frameworkz flat 50mm border can be screen and digitally printed to almost any design. Print from its stylish gloss black border up to the very edge of your snapframe opening. The minimal distance between your frame and poster allows you to cross over your poster design and allow it to bleed onto the frame - or incorporate bold branding or imagery to help your poster display to stand out.
